

## CISSP Certification Security+ Training

### Why Obtain Security Certification?

- Gain credibility and remain marketable
- Acquire new security skills
- Meet DoD Directive 8570.1 requirement
- Advance in your current position

**NetSecurity's instructors maintain student PASS rate of 100% in both CISSP and Security+ certification exams. With our record, your chance of passing any of the above exams is assured or you take the next training for half the price!**

### Benefits of NetSecurity's Certification Training:

- Instructors' combined security certification exam PASS rate on previous training is 100% (*Note: We do not guarantee that a student will pass*)
- Two (2) instructors instead of one (1) to deliver CISSP Common Body of Knowledge (CBK) content, depending on the number of students
- Six (6) instead of five (5) days of CISSP training, ensuring completeness and thoroughness
- Three (3) instead of two (2) days of Security+ training
- Live classroom instruction with interaction with instructor(s) and other students
- Training includes hands-on exercises to demonstrate complex theoretical topics and to further improve content retention
- Seasoned expert instructors with real-world hands-on experience that are current on emerging security trends, threats, and topics
- Accelerated delivery system enhances knowledge retention through rigorous test-taking sessions that are representative of an actual security certification examination
- Students obtain a personal critique of individual practice exercises to help identify areas of weakness, ensuring that emphasis is placed on problem areas
- Up-to-date certification course content that covers (ISC)2's study guide and CompTIA's exam domain
- Available instructors to provide a 30-day FREE support and guidance on taking a security certification exam

*"The instructor provided simple, straightforward discussions of the CISSP topics. He was willing and able to explain any subject in sufficient depth to make it understood and to provide real-life examples from his significant experience. I would highly recommend any course taught by the instructor. Thanks for all the help... I wouldn't have passed without it."*

*-- Managing Partner, Security Consulting Firm*

*"The training session was very informative and provided excellent insight in today's challenging world of security auditing tools and techniques. I look forward to attending more of NetSecurity's Hands-On How-To training courses."*

*-- Principal Consultant, Major Federal Integrator*

### About Us:

NetSecurity is a hands-on security consulting and training company. We work with you to understand the unique security challenges, goals, and requirements of your business. We then provide tailored, high quality, customer-focused, and cost-effective solutions to protect you against emerging security threats and the knowledge you need to manage your enterprise security risk proactively. As a training company, we provide knowledge of real-world security issues through simulated and "how-to" exercises that enable you to do your job successfully, saving you retraining costs and time.
